### MOVING

Berkeley may be close to Richmond, but not close enough for R. W. Dorius. Dorius likes his home that he has built in Berkeley, but he would like to have it in Richmond. So Dorius is going to move his home to Richmond.

He has just secured a permit from the building inspector in this city to move the cottage to a site he has purchased in Richmond.

### RICH WIDOWS

Rich widows continue in popularity. Word has just come from Sacramento that a new aid has been offered the versatile Dan in a list of wealthy widows of the San Francisco Bay region. Although the list which is sold at \$40 per, has caused much amusement, it will probably also be ably used as a sucker list by those who have fictitious stock, etc., to sell.

### NAVY AIR SERVICE

The navy may have adequate air equipment if a recommendation from the House Naval affairs committee to expend \$100,000,000 for the purchase of new equipment for the fliers.

The plan includes the purchase of 1000 modern heavier than air ships and two dirigibles of the latest type. This would make the Naval Air Service second to none in the world. But the saving that the bill will receive before it is through will probably preclude much development.

## Phantom Rifleman Terrorizes Omaha

(By Universal Service)  
OMAHA, Feb. 18.—A "phantom rifleman" who, in the past 72 hours has killed two persons and shot at numerous others, was being hunted by scores of people here tonight. Miss Esther Nautner is under armed guard at her home and is in a state of prostration fearing she will be the next victim of the maniac. A bullet barely missed her while she was standing near a drug store. William McDermott and Dr. Arthur Seales are the dead. They were found with 22 caliber rifle holes behind their right ear.

Neighborhood windows are in darkness tonight while sitting where they may have a full view of the streets are men heavily armed, waiting for the appearance of the ghost like figure which carries death in a steel barrel.

More than 26,000 members of the California State Automobile Association received free emergency road service last year.

## REHEARING ON BERKELEY-S.F. DIRECT FERRY HAS STARTED

President of R. R. Commission States Case to Rest On Its Merits

SAN FRANCISCO, Feb. 18.—Rehearing by the state railroad commission of the application of Golden Gate Ferry company to inaugurate a ferry service between San Francisco and Berkeley started here today.

City Attorney J. J. O'Toole of San Francisco, City Attorney E. J. Sinclair of Berkeley and F. R. Devlin, attorney for the ferry company, were the principal witnesses.

They declared that in view of the widespread public sentiment both in San Francisco and Berkeley in favor of the proposed service, the commission in previously refusing the application had not given the matter due consideration.

All three witnesses urged the commission to grant the ferry company permission for its proposed ferry line and they pointed out there was a real need for such additional service.

Previous to the opening of the hearing President Harley W. Brundage of the commission read a statement in which he declared that in view of the attitude of the press and official and civic organizations on both sides of the bay in the matter of the establishment of another transbay service, he hoped the present hearing would bring about a clearer conception of the facts than apparently exists at this time.

"When, as here, an applicant comes before the commission seeking certificate of public convenience," Brundage read from his statement, "the burden of proof is upon the applicant. His showing must be positive and conclusive. He must prove exactly what is required by public convenience and necessity."

"The matter now before the commission will be determined in exactly the same manner as any similar application, solely upon its merits as disclosed by the evidence in the record. "Efforts to influence the commission's view by newspaper campaigns, by community or other drives, by threats to destroy the commission, or to discredit or to drive from office the members of the commission, can, of course, have no effect in securing a decision which is not based solely upon the facts."

## LOCAL LIONS AT PITTSBURG CHARTER MEET

A program was presented last night by the Richmond Lions at the charter night ceremonies of the Pittsburg club. The Richmond talent which staged the different stunts at the meet was composed of the Lion club quartette which includes C. E. Donnelly, H. H. Mylander, Bert Carter and D. J. Shaw. The Lion's club trio played special music and were the hit of the evening. The trio consists of Carl Richards, and Ward McKracken, violins; D. J. Shaw, piano. Archie Winchell sang a number of songs which were well received.

The local club took with them John Toffoli, the Richmond accordion player who played some of the latest music.

According to the members a large crowd was in attendance at the ceremonies. Delegates from Richmond, Stockton, Tracy, San Francisco, Hayward, Oakland, Fairfield, and Berkeley were at the meeting.

The charter to the Pittsburg club was presented by Deputy District Governor W. E. Strel of Oakland.

Past international president Jesse Robinson was chairman of the evening.

The local club left the Redmen's hall last night under the direction of C. F. Donnelly. About 40 Richmond members made the trip.

Coss, Revolt Leader in Mexico, An Exile in U.S. Fearing Death on Return

Gen. Francisco Coss, a leader in the de la Huerta revolution in Mexico in 1924, fears that if he is forced into that country he will be executed. He has had a secret hearing before an immigration inspector in San Antonio, Tex., and the record of the proceedings has been sent to Washington. The case of General Coss runs closely parallel to that of Col. Manuel Demerrio Torres, who was quietly deported from San Antonio on January 14, turned over to Mexican military authorities at Nuevo Laredo and executed in Torreon.

## LOCAL WOMAN IS INJURED IN TRAIN WRECK

Mrs. Thomas P. Powers, 643 Fifth street received a severe shaking up and bruises Wednesday evening when the coach in which she was riding on the Santa Fe Passenger Train No. 5 bound for Richmond was derailed near LaGrande in Merced county.

Two other passengers besides Mrs. Powers were shaken up and bruised when the entire train was derailed due to the breaking of an axle in the engine, according to officials of the company.

Mrs. Powers was returning home from a visit in Fresno when the accident occurred. She was treated by Dr. A. S. Parker of the Santa Fe and taken to the Mercy Hospital in Merced. She was returned home today and is under the care of Santa Fe physicians.

Conductor William Bowyer of Richmond and Engineer El Land of Riverside were in charge of the train.

Considerable track was torn up and according to witnesses of the accident had the train been traveling a few miles faster the casualty list would have been large. While the tracks are being repaired the Santa Fe trains are being re-routed over the Southern Pacific lines between Merced and Fresno.

## Sister of Local Man Killed In Utah Avalanche

According to a telegram received by W. W. McDonald of the Mechanics bank, his sister, Mrs. Mary Rentz was one of the victims of the avalanche at Bingham, Utah, on Wednesday.

Three other relatives were among the injured when the avalanche crashed down upon the hotel owned by his mother, Mrs. J. F. McDonald. They were: Jack Rentz, a brother-in-law; James McDonald, a brother and the wife of the latter. McDonald's mother and sister escaped the disaster as they were in Salt Lake City at the time.

McDonald stated today that he is leaving for Utah to help his relatives.

**DORADOS HAVE DAUGHTER**

## GARY PREDICTS THAT COOLIDGE WILL REMAIN FOR 2ND TERM

Renominated, Re-Elected Is the Prediction of Big Steel Man

(By Universal Service)  
WASHINGTON, Feb. 18.—President Coolidge will be renominated, re-elected and the country will ride upon the greatest wave of prosperity ever known, Elbert H. Gary, head of the United States Steel Corporation, predicted here today.

Gary, who with Mrs. Gary, has been attending a few social functions and visiting old friends in a brief respite from arduous business cares, gave his views on important political questions in an exclusive interview with Universal Service. He said:

"I hold no brief for any political party, for the present administration or for President Coolidge. I am a business man especially interested in business progress and prosperity. "I have not seen very much of him and his opinions of him are formed largely from what has been and is being published. He seems to have the respect and confidence of the people generally."

"His administration of public affairs has the approval of a large majority of the citizens and this includes approval of the present Congress of the United States."

"The present tendencies are in the right direction and the public will receive the benefit it seems to me that the chief aim of the majority of our officials, from the President down, is to advance (Continued to page 5)

## BANK OF ITALY SCORED BEFORE SENATE BODY

(By Universal Service)  
WASHINGTON, Feb. 18.—Prediction that the Senate committee on banking and currency will report the McFadden Bill favorably was made here today upon completion of testimony by supporters of the measure.

The section restricting branch banks from acquiring new branches if they are to retain membership in the Federal Reserve System, appeared to be the only point in dispute.

Senator George Wharton Pepper of Pennsylvania, chairman of the Sub-committee and sponsor of the bill in the form it passed the house by a vote of 292 to 90, believes that any compromise will not materially affect the purpose of the action.

Closing arguments in favor of the bill were made by J. Dabney Day, president of the Citizens National bank of Los Angeles, and Robert M. Fitzgerald, vice-president of the Central National Bank of Oakland. Both speakers characterized present branch banking in California as a menace to the strength of the Federal Reserve System.

Fitzgerald openly charged the bank of Italy with having used "vicious tactics" in attempting to force small independent banks to the wall which had refused to sell out to that institution.

"The domineering arrogance of this organization, which seeks to control the banking situation in California, is unbelievable except to those of us who have had a chance to observe its practices," he declared.

"Even the other branch banks see in its aggressions a real danger, and I believe they agree with us that this giant banking monopoly ought to be cured."

Day declared that the relief which the National banks are asking is necessary if National banks are not to be strangled to death by the "Banking Octopus" which is threatening the foundation of the Federal Reserve."

## New Prohibition War In Lower House

## DRY AGENTS ARE ACCUSED OF MURDER

Quiz of Anti-Saloon League Is Called Insult to 85% Of People

Representative Says Baltimore Has no Less Than Fifty Saloons

(By Universal Service)  
WASHINGTON, Feb. 18.—Raging warfare in Congress over prohibition broke out anew in the House today, when Rep. Joseph E. Deal of Virginia, accused prohibition enforcement agents of shooting down innocent persons merely on suspicion that they were violating the law.

A free-for-all battle was precipitated by a remark of Rep. Thomas S. Blanton of Texas, that "there are fifty saloons in Baltimore selling high-power beer illegally."

Turning to Rep. John Philip Hill of Baltimore, Md., a wet leader, Blanton declared:

"I can take you to Baltimore and get you so drunk that you will not remember that you ever were a member of Congress."

"How do you know?" asked Rep. F. H. Laguardia of New York.

"Well, a Democrat from Baltimore told me there were 50 saloons running wild in Baltimore," replied Blanton.

Blanton turned to Rep. Linthicum, also from Baltimore, and asked him if he would deny that there were 50 saloons in Baltimore. "I would not be surprised for that is the result of the Volstead Law," replied Linthicum with sarcasm.

Blanton said the Britton resolution to investigate the anti-saloon league, was an insult to 85 per cent of the people.

"What does the wet want," he shouted.

"Beer" shouted a voice from the rear of the chamber.

## Three Homes and Flat to Be Built

Six building permits were issued yesterday by Building Inspector E. E. Grow. They are:

A permit granted to R. A. Washburn for the erection of a concrete plumbing shop at Twenty-third street and Nevins avenue at a cost of \$2000. C. Overaa will be in charge of the work.

Martin Affel was granted a permit for the building of a two story flat and private garage at Seventh street between Lucas and Lincoln avenues at a cost of \$8,000. C. Overaa is the contractor who is in charge of the work.

A Besso received a permit for the erection of a cottage and private garage at Twenty-eighth street between Nevins and Barrett avenues at a cost of \$4000. C. Overaa will be in charge.

A permit was issued to the Bay Cities Home Builders for the building of a cottage and private garage at Solano avenue between Lassen and Ventura avenues at a cost of \$3200.

Permits were issued to C. Goncalves and T. Rodriguez for the building of a factory, a drying house and a private garage at fourth street between Bissel and Barrett avenues at a cost of \$1150.

Free mechanical first aid was furnished over 12,000 members last year by the California State Automobile Association.

## SEVENTY ARE THOUGHT DEAD IN AVALANCHE

(By Universal Service)  
BINGHAM, Utah, Feb. 18.—The Sap canyon Avalanche held a vice-like grip on its dead tonight. Trained miners, playing picks and shovels with all their strength and skill, could make but little progress in moving the mountain of snow that yesterday buried between 70 and 100 persons.

Thirty-two of the dead had been removed from the snow and debris early tonight. Other bodies had been located but were so deeply buried and so firmly pinned by timbers that they could not be brought out. Best estimates place the number of dead at 70.

Frank A. Wardlaw, superintendent of the Utah-Delaware Mining company, that gave employment to men folk of Bingham's 4,000 population, explained what is being done. He said:

"We had to start at the bottom of the gulch and work upward. This great mass of snow and debris must be moved by hand shovels. A mechanical shovel, if we had one, would tear the bodies to pieces. It will be at least two days before our work is finished. Then we may know how many are dead, for we cannot move some of this snow and it is not improbable that more bodies will be found after it melts away."

The area covered by the avalanche is more than a mile long and several yards wide. In this area stood at least twenty homes of miners, a hotel and two boarding houses.

The miners were men who come and go. Some of them were not well known in the camp.

## TO CLOSE ROAD

MARTINEZ, Feb. 18.—To permit the county to make a fill of 1000 feet where the road has been submerged by the recent alish water, the Avon road will be closed for two days. Traffic east of Martinez will be routed by way of Concord.

## Middle West In Midst of Heavy Snow and Storm

By WILEY S. SCRIBNER  
(By Universal Service)  
CHICAGO, Feb. 18.—A blizzard swept over the country today. Half a foot of snow fell in Chicago. The storm extended from the Rockies to the Great Lakes. "Colder tonight and much cooler tomorrow," was the prediction made by the Weather Bureau. The cold is following in the wake of the blizzard.

A phenomenon of the storm was brilliant flashes of lightning and deafening thunder observed on the prairies while the snow was falling thickest and the wind was roaring its loudest. Seldom has a blizzard been accompanied by thunder and lightning.

A score of cities in the middle west reported street car traffic interrupted and automobile highways blocked.

## WIFE WAITS 32 YEARS TO FILE ALIMONY SUIT

(By Universal Service)  
OAKLAND, Cal., Feb. 18.—Thirty two years after his divorce from his first wife, J. S. Aston, Oakland contractor, faced today an action by the wife, Mrs. Josephine Aston, for recovery of alimony of \$70,000, alleged to have been unpaid since the divorce, April 13, 1894. Mrs. Aston declares her spouse was ordered by the court to pay \$65 a month alimony to her and their two children. He only paid \$13.52, the complaint alleges. Aston has since married and has two children by the second marriage. Attorneys for the first Mrs. Aston assert.

## BOULDER DAM TO GO ON RADIO

(By Universal Service)  
WASHINGTON, Feb. 18.—What Boulder Dam means to the nation from an economic standpoint will be told over the radio Saturday night by Dr. Elwood Mead, commissioner of reclamation. He will speak from station N. A. A. at Arlington, Va.

Dr. Mead will outline the proposed development at Boulder canyon and describe its relation to American and Mexican interests in the lower Colorado river basin.

## TWO OTHERS NAMED IN THE INDICTMENTS

Witness Says Mayor Madden Paid Him \$50 for Use of Pier to Land Rum Cargo

BAIL IS FIXED AT \$10,000

Attorney Indicted For Attempt To Have Witnesses Change Testimony

SAN FRANCISCO, Feb. 19.—Mayor Herbert Madden of Sausalito was directly named as one of the leaders in a rum smuggling conspiracy, when John Rasmussen testified that the mayor and Joe Parente paid him \$50 for the use of his wharf at Iverness, Tomales Bay, for two nights, when rum was smuggled into port. This declaration came yesterday with other sensations, before the Federal Grand Jury.

This is the first time during the sensational trial that a direct accusation has been leveled at the mayor of Sausalito. Rasmussen was strictly cross examined but held to his story that Madden and Parente had been the leaders in plot to smuggle liquor into the country, and he also identified the two as being the men who had appeared at his home on Tomales Bay, with a proposition to rent his pier.

The Federal Grand Jury returned a vote of indictment against three men, for conspiring, Madden, Parente and Attorney William F. Herron, who was employed by the two others to try to convince Rasmussen to withhold his testimony in court, and they will each be required to furnish \$10,000 bail.

## PLUMBING SHOP TO BE BUILT

According to a permit granted by City Building Inspector E. E. Grow yesterday, R. A. Washburn who has been in the plumbing business in Richmond for the last ten years, will build a concrete plumbing shop and sales room at Twenty-third street between Nevins and Barrett at a cost of \$2000.

Carl Overaa, a Richmond contractor, will handle the job.

The new building, which will have a frontage of 30 feet on Twenty-third street and will extend 50 feet on Nevins avenue, will be completed in two months.

Washburn's present shop is located at 266 Twelfth street.

### THE COOLIDGE DOCTRINE

A "Coolidge Doctrine"—a statement of America's position toward rest of the world—to take its place beside the Monroe Doctrine, is advocated by the editor of a European newspaper as the need of the hour.

He would have his new doctrine be a definition, based on principle and practice of the international objective of the United States. It would require neither treaty nor acceptance by other nations.

But hasn't President Coolidge already outlined, partially at least, just such a doctrine? Does not the administration's position on the world court, disarmament and the league of nations constitute a doctrine such as that suggested? Surely the author of this idea was not accusing, by innuendo, this country of refusing to place its cards on the table.

On one point in the "American participation" debate are the people of the United States united. Whether for or against membership in the league or world court, and irrespective of party or party faction, the American people stand as one against interference by this country in the petty international politics of Europe and are just as unalterably in favor of American co-operation with the rest of the world in the establishment of permanent world peace.

Perhaps no other nation in the world has less cause than the United States to worry about invasion or other international strife, and yet it has shown itself ready at all times to go more than half way to meet the world in any peace plan. It has, however, refused and will continue to refuse to take sides in the selfish and unfounded quarrels of Europe.

### BOOMERANG

Persons who have made a study of the proposed equal rights or feminist amendment to the federal constitution believe that if it is ratified and then enforced to the letter it will force husbands to pay fixed wages to their wives for such household duties they may perform.

The authors and backers of the amendment are women and women only are expected to benefit from its adoption, but might it not prove a boomerang for a goodly number of the sisterhood?

If husbands are compelled to pay their mates for the work they do, surely the wife can neither demand nor expect other allowances. But what of the wives who engage in no household labors? Would the husband be held responsible for the death of his consort if she preferred starvation to work?

There is another way in which this proposed annexation to the fundamental law of the land would react to the advantage of the husband. It would, by extension, bestow upon the husband the right of elevating his wife's service and paying her accordingly.

If the ladies are in earnest in their purpose to have the constitution thus changed they may expedite the process of ratification by giving congress, individually and collectively, the positive assurance that husband who places his wife on the household payroll may claim the privilege of "firing" her should her services be found unsatisfactory.

The world could be worse. Lots and lots worse. Suppose, for instance, chewing gum was like chewing tobacco.

### ON SLEDS OVER A FROZEN RIVER

You have perhaps, got the idea now that only the colonies in our own United States were flourishing. Perhaps you have forgotten all about Canada, except that there were valuable fisheries in that region controlled by the French.

There were growing settlements in Canada. They had grown and prospered as greatly as the English colonies, which were their neighbors on the south.

The English colonies were constantly debating what they would do in case of invasion by the French. They were continually preparing for a day when there should be war between them.

The French themselves were planning expansion and improvement. One particularly brilliant Frenchman had a plan for development. His name was La Salle. He wanted the French colonies to establish trading posts all along the Great Lakes and the rivers that emptied into the Mississippi. He set about doing the necessary exploring and map-making that was a preliminary undertaking. But he met with ill

luck at the very beginning. First of all one of his ships simply sank out of sight on the Great Lakes. She disappeared with all on board. Then another ship that was laden with needed supplies from France sank in the St. Lawrence river.

It was winter when at last La Salle and his party arrived at the Illinois river. Blizzards abounded. The icy blasts from the north would have chilled the very heart of a less courageous leader. The river was frozen tight. Yet La Salle was determined to proceed on his way.

With the canoes and supplies strapped to sleds they went down the river in the face of the snow storms and sleet and ice. It must indeed have been a bitter experience and one which only the most hardy could endure.

As soon as the ice gave way to open water, they abandoned the sleds, got out of the canoes and went on with stouter hearts. Arriving at the Mississippi they were confronted by new dangers. Drift ice from the rivers to the north appeared in the muddy water. They could not launch their canoes with any safety, for the ice, coming at high speed, was

PICTORIAL REVIEW

### COMBINATIONS FAVORED BY FASHION

Combinations not only follow the lines of the latest frocks under which they are worn, but they are also colorful. To the left is a model in Nile-green nylon. It closes at the left side, and has a brassiere with upward-turning plaits at the underarm seams. The step-in is gathered front and back, and attached to the brassiere. Medium size requires 1 1/2 yard 36-inch material.

To the right is a copy of a French model done in maize voile. The front and back are gathered to a band which may be self-material edged with lace or entirely of lace. The shoulder straps are of ribbon matching the color of the batiste. If desired, a dainty embroidery design may be added to the lower front sides of the step-in. Medium size requires 1 1/2 yard 36-inch material and 3/4 yards edging.

First Model: Pictorial Review Combination No. 2490. Sizes, 34 to 46 inches bust. Price, 30 cents.

Second Model: Combination No. 2494. Sizes, 34 to 48 inches bust. Price, 30 cents.

### SYNOPSIS

Gregory Cochran, gazing out of the car window as his train drives to the home town, is attracted by the sight of a forlorn-looking girl at the side of the tracks. After alighting he follows and rescues her when she plunges into the river. The girl is Molly Shannon, university student, who has been driven to desperation by the desertion of her fiancé, Stephen Renfro. Cochran takes her to his own home, one of the finest in the town, and, against the wishes of his proud old mother, shelters her.

### CHAPTER XV—Continued

Cochran got up, went round behind her chair, and put both hands on the stately black silk shoulders. "My dearest mother, I don't expect you to believe anything—only . . . don't you see she's just another of these little birds with a wing half shot off? And we've got to give it time and chance to mend so that she can fly away again. . . .

"But if she has no people," his mother persisted, softened, not by his plea, but by himself, "surely a hospital. . . .

Cochran made a decided negative motion. "Hospitals may be well enough for broken bodies or—broken heads. But when it comes to broken wings, I wouldn't give a picayune for the lot of them! No, mother—he stooped and kissed her with an air of finality no other human being ever dared assume—'we're going to keep her here and do everything we can for her, and say nothing to anybody about it.'"

### CHAPTER XVI

There are illnesses of the soul more deadly and wasting than the most virulent infections that attack the body. Barring a flurry or so with measles and scarlatina, Molly had never been ill in her life. There had not been time for a-borning sickness was a luxury only properly to be indulged in by the well-to-do. The true depths of poverty are not sounded until disease is superadded to other and lesser evils. This she

concentrate, she pulled herself up to one elbow. She inched slowly and painfully toward the edge of the bed. If one could do as much as that—there were eight or ten all told. . . .

When she gained the edge of the bed the stand was still more than a foot away. She had to hold on with one hand to the bedpost while she reached out with the other and gathered the flock of papers into a heap. They fell fluttering on to the counterpane as she dropped back a dead weight against the pillows. Drowsiness and torpor swept over her flood on flood threatening to overwhelm, to sweep her back into her chasm of silence. . . . Pushing and struggling at them, she contrived at last to open her eyes again. She put out her hand and drew the papers to her, unfolded one and began to empty into it the contents of the others. It was slow work. Her fingers were thick and clumsy, and the papers were curled and curved about until some of the precious white powder was spilled.

She had not heard the door open nor anyone come into the room. But that unerring sixth sense which warns when we are not alone made her drop the powders abruptly and turn her head. The warning had come a trifle late, though, for she had an idea that the man standing on the other side of the bed had been there for some time. He was looking down at her with curious intentness, but he showed no inclination to stop whatever it was she was doing.

Instead he smiled and observed in a casually cheerful bass, "Good morning."

Molly, glancing back furtively at her own occupation, found, to her dismay, that the powder had spilled and was trickling in a slow stream over the edge of the counterpane.

If the man noted the circum- stances, he gave no sign. He came round to Molly's side of the bed and drew up a chair, which creaked a trifle as he subsided deliberately into it. "I'm glad to see you're awake this morning," he said still cheerfully. "When a young lady has slept for two blessed weeks . . . He broke off with a slight humorous gesture and looked down rather doubtfully at the chair, which was of fragile build.

## Patriotic Program Enjoyed by Guests Of War Mothers

The patriotic program presented by the Richmond War Mothers yesterday afternoon in Memorial hall, was an unqualified success. The event was given to honor the birthday of George Washington, and interesting impersonations of the characters of Washington, Martha Washington and Betsy Ross formed an important part of the program.

Those who represented the three characters who formed an important part in the early history of the United States were: Irving McKee taking the part of Washington; Mrs. A. B. Cole as Martha Washington and Mrs. Ethel Courtney as Betsy Ross. All three were in costume, and each gave a talk, bringing back to memory those speeches and events which history associates with the famous personages.

An address on the Life of Washington was delivered by Aubrey Wilson, and the program was completed by two solos by Mrs. Violet Williams, and a reading by Miss E. Glineburg.

The program was well attended, and refreshments served were partaken of by a goodly number. Mrs. Stewart was in charge of the program, and Mesdames Anna Lautenschlager and Martha Schumacher presided at the tables.

## MUSICAL PROGRAM AT ROOSEVELT HIGH

An interesting program of violin and piano music was presented at the Roosevelt Junior high school yesterday afternoon, at the regular weekly musical session, by Emil Esola, pianist and Ward McLaeken, violinist.

Miss Helen Morehouse, who was in charge of the affair, announced a large attendance of both students and the public.

Following is the program presented: "Let Me Gaze from Faust-Gounod "Ave Maria" . . . . . Bach-Gounod "Elegie" . . . . . Massenet "Cavalier Rusticana" . . . . . Mascagni "Liebestraum" . . . . . Liszt "Melody" . . . . . Charles Davis

## JACKIE COOGAN IS COMING IN "THE RAG MAN"

In his latest Metro-Goldwyn production, "The Rag Man" which is coming to the Richmond theatre today and tomorrow, Jackie Coogan has a story that is beautiful argument against race prejudices—though of course its reason for existence is not to preach, but to entertain.

The story, written by Willard Mack, tells of a little Irish boy who falls into the hands of a junk dealer, becomes his active, and finally his "senior" partner, and throughout is his taunting, adorable and aggravating little comrade. There is plenty of pathos but there is more than even the usual quota of "Coogan Comedy" in this picture. Eddie Cline was given the post of director of Jack Coogan, Sr., and was instructed to "make it the funniest picture that Jackie has ever starred in."

And that's precisely what Eddie Cline has done.

Other features on the same program include "Convict 13" Buster Keaton's funniest comedy; "Felix On The Farm," a Felix the cat comic.

More than \$425,000 has been expended by the California State Automobile Association for road signs of which the counties of the state have furnished less than \$100,000.

## INSPECTORS AT LOCAL FACTORY

S. C. Straub, former head of the Richmond Cemented Products Corporation, and now an inspector of the company at headquarters in New York City, was a visitor here for a few days, leaving today for the east.

Mr. Straub was employed at the local company for five years, following its inception in 1914. He was accompanied by O. C. Orr, general purchasing agent for the company, who will spend a few days here. The trip was made for inspection purposes.

## Suspect Wanted In East for Murder

MARTINEZ, Feb. 18. The district attorney's office here today declared that Otto Brown, colored, who is on trial for the murder of Wesley Harmon, is wanted in Texas on a charge of murder. Brown was identified by a colored witness that came from Los Angeles, the district attorney announced today.

## Rubber Plantations For the Philippines

MANILA, Feb. 18.—Harvey Firestone, American rubber magnate, was urged by Governor General Leonard Wood here today to consider the Philippines in connection with his contemplated rubber plantation projects.

As a result of the agitation for independence from the British rubber monopoly the Philippine supreme council announced today it planned to plant two hundred million rubber trees. Prison labor would be employed and all profits would go to the government, according to the plan.

## He Danced In Nude; Wife Wants Divorce

OAKLAND, Cal., Feb. 18.—John Stuart Hampel, San Francisco insurance broker, was so devoted to the nude torso, according to a complaint for divorce filed here today by his wife, Florence, that at parties he would dance himself and dance in the nude to the consideration of his wife and hosts.

CHARGES CRUELTY (By Universal Service) SAN FRANCISCO, Cal., Feb. 18.—Additional charges of cruelty are contained in an amended divorce complaint filed by Mrs. Constance Hart Mylie, social beauty, against her husband, C. Ellsworth Mylie, local advertising man.

Mrs. Mylie charges that the \$250,000 alienation suit filed by Mylie against her mother, Mrs. Benne Hart and Lieutenant Roger S. Ranshousen, U. S. N., constituted cruelty. She also charges that Mylie was subject to needs during which he declared she "ought to be shot" and that while in a jealous rage slapped and beat her.

## STORY OF GOLD RUSH SHOWING AT CALIFORNIA

John Sutter, famed in California gold rush history as the discoverer of the land upon which the precious metal was discovered in 1848, comes to the screen in "The Splendid Road" showing at the California theatre. Roy Ladouce, screen star, personates the famous old prospector.

Sutter was granted many land grants in the Sacramento and Feather River valleys by the Mexican and American governments for the purpose of settling the territory and developing the national resources. Near what is now Sacramento Sutter built a fort to protect his workers from attacks by outlaws and Indians. Sutter's land was a territory of farms, ranches and cities with industries of varied sorts.

Most of the newcomers settled on Sutter's land and became known as "squatters." Efforts of Sutter's agents to evict them proved fruitless but a flood did cause most of the squatters to leave the townsite of Sacramento and go elsewhere. Sutter died a broken hearted poor man, despite all the gold that was found on his land and his extremely large estates.

Other features on the same program include "A Woman of Letters" based on "The Married Life of Helen and Warren," international news; Larry Canelo at the organ.

ESTELLE CLARKE

Running Several Blocks Daily, Plus Diet and Exercise, Does Trick

Estelle Clarke, one of the charming newcomers of the screen who plays a feature role in Metro-Goldwyn-Mayer's "The Merry Widow" in which the charming Mae Murray stars, has lost something she hopes never to find again. In fact, she runs several blocks daily to keep away from it. But she has also found something she hopes never to lose again too—a perfect form!

It is a little matter of fifteen pounds that Estelle lost in three weeks, and she declares she was not hungry once, and gets along beautifully without the surplus avoirdupois.

Her method was simple, and at the same time stringent.

She went on a diet of fruit and vegetables, avoiding especially starchy foods, such as potatoes and bread, and eating peaches, melons, grapes, carrots and salads without an abundance of rich dressing.

In addition, she exercised strenuously to music for ten minutes each day, doing bending exercises and dance steps, high kicking and the split. Along with this she ran several blocks each day.

Estelle dedicates her method to all suffering fat womankind gratis. Give one look at Estelle's legs, girls, and in the words of the Bible, "Go thou and do likewise!"

"I see by the papers . . ."

WE ALL do. It's a national habit. Newspapers open and close the day. They are a vital part of our daily existence. Take them from us and the wheels of progress stop. We must have the news!

And news about merchandise ranks with news about current events. As a matter of fact, it is even more personal. It concerns you and your daily needs. Food. Clothing. Shelter. Household necessities.

The newspapers bring you this vital news of merchandise. The advertising columns of this paper are a business guide-book to guide both footsteps and expenditures. They tell you what, tell you who, and show you where. Pilots of the family purse.

Read the advertisements. Every day. Buried in small type may be a bargain that was born for you especially. Know before you go to buy, just what you want and what you will have to pay for it.

"I buy by the papers" is the twin of "I see by the papers." You consult a time-table to see what train to take. Consult this newspaper to see what goods to buy.

Newspaper advertisements are buying beacons to light your way to wise expenditure

## Gary Predicts that Coolidge Will be Re-elected

(Continued from Page 1)  
the best interests of the whole country, rather than that of any political party.

"Any prediction I might make in regard to the future would include several 'ifs'; if President Coolidge shall continue persistently and uninterruptedly his natural disposition to modestly, simply, courageously, wisely and unselfishly administer affairs of the government, in the direction of future progress and prosperity and the full recognition of moral obligations in preference to the political success of person or party, as we expect, there is nothing that will interfere with his re-nomination and election, resulting in the greatest prosperity the country has ever witnessed.

"To me it seems remarkable that the confidence throughout the country in President Coolidge and his associates and the basic fundamental conditions is so general. "Action of the present Congress in giving non-partisan support to tax reduction is an example of the changed viewpoint of politicians.

"It is much more in harmony with the wishes of the people back home than those observed by some past Congresses."

Mr. and Mrs. Gary returned to New York this afternoon.

## Scarves Short and Long, Many Colored and Futuristic, Lend Color and Gayety to the Spring Costumes

The long scarf of brilliant futuristic design tied about the neck in smart stock tie fashion has been recently introduced for Spring wear. Norma Shearer is shown wearing this new scarf mode in "The Devil's Circus," her latest Metro-Goldwyn-Mayer production.

To a gay variety of brightly colored scarves are introduced two new fashions for the new Spring season. The short, narrow scarf which so closely resembles the masculine scarf, and the very long scarf which is tied about the neck in front in smart stock tie fashion to hang almost to the end of the skirt, are the latest offerings of fashion. One of the very smartest of the new long scarves is the futuristic patterned affair in brick red which Norma Shearer movie star, wears in her latest

Metro-Goldwyn-Mayer production, "The Devil's Circus." Illustrated are a few of the latest modes in scarves to be worn for various occasions. The large picture hat in Figure 1 shows an effective way of draping a scarf about the crown of the hat in smart afternoon fashion for Southern and resort wear. This scarf is fashioned of printed georgette. The new short scarf, approximately two feet long by eight inches wide, is illustrated in the hand blocked flat crepe scarf in Figure 2. A long hand blocked affair in Figure 3 is effective for general wear, while Figure 4 shows a delicate chiffon scarf studded with rhinestones to match the color of one's evening gown. The hat and scarf combination continues very much in vogue. Figure 5 shows a hat and scarf set of crepe with bright colored satin patches applied with gold thread. For golf, hiking and general sport wear the cashmere sport scarf of Scotch plaid in Figure 6 is appropriate.

### TRAP CAR SERVICE

According to a decision handed down by the State Railroad Commission Richmond and the East Bay cities will enjoy a trap car rate of \$2.75 a car load.

The railroads have offered to extend a trap car rate to other cities but ask \$3.50 a car load.

The decision is the result of a move of the San Francisco chamber of commerce two years ago to get better service between the east bay cities and San Francisco.

## Financial Security Comes Through Systematic Saving

Many persons after establishing savings accounts make the big mistake of neglecting to make regular deposits. It is a common fault that can be overcome by determining in advance the approximate amount that can be safely spared for saving each week or month.

The Mercantile Trust Company of California has seen many savings accounts grow to healthy proportions from lowly beginnings. For per cent interest compounded semi-annually effects surprising results. Saving money is not difficult if attempted rationally and methodically. Make a start now by opening an account, even for as little as one dollar but add to it regularly and persistently.

## Middle West In Midst of Heavy Snow and Storm

(Continued From Page 1)  
were put to work cleaning Chicago's streets. Home going throngs trudged through the slush or waited on corners for cars that were away behind their schedules.

Transcontinental trains arrived slightly behind schedules. It was feared rail traffic would be further impeded when the snow drifts on the plains.

In the mountain regions, cuts and canyons were being filled with snow and trains moved slowly. Track walkers guarded against impending avalanches.

A gale that reached 35 miles an hour in Chicago swept over the country. It exceeded 50 miles an hour in some of the prairie states to the west.

The storm was most severe in Kansas, Nebraska, Missouri, Iowa, Illinois and Wisconsin, but it was felt as far south as Texas and northward to the Canadian border.

Air mail service between Chicago and the Pacific Coast was suspended. Tonight reports from the far west told of clearing weather in the Rocky Mountain regions and it was believed service would be resumed tomorrow. Wire communication was seriously affected throughout the storm area. Ice and snow two inches thick clung to wires and poles that threatened to snap under the tremendous weight.

## MANNING AND FRANKIE BRAY FIGHT TONIGHT

The fur ought to fly at Winters pavilion tonight when Frankie Bray a welterweight who can box, tangles with Battling Manning, New Orleans welterweight, who can punch. The rival welterweights are meeting over the ten round route, and should put on one of the greatest action bouts ever seen in Richmond. Manning has a decision over Gilbert Attell in his last fight at National hall pavilion about a month ago and he defeated the clever boxer easily. Manning is substituting in place of Jimmy Bartlett the Valjeo welterweight, who was originally matched with Bray, but had to drop out of the match as he suffered a fractured rib in a training bout Wednesday afternoon.

However, the substitution of Battling Manning against Bray rather strengthens the card rather than weakens it, as the latter is a more seasoned boxer than is Bartlett and has a better ring record.

Jimmy Valentino of New York made a big hit with local fans in the way he handled himself in his last fight here with Bobby Ertle. Tonight, the lad is to get a crack at one of the cleverest and toughest featherweights in the game when he meets George Spencer the San Francisco veteran in the semi-windup of the Richmond Athletic club's fight card tonight at Winters pavilion.

Spencer has been fighting with success for several years. He has two draws with Tod Morgan, now Junior lightweight champion of the world, and he has fought with success against such opponents as George Lee, the Sacramento Chinaman; French King, Young Rizzo, Young Farrell, Eric Fleigel, Tuffy Wing Wing, Rudy Levine, Sydney White, Felix Villamora, and scores of others, who are listed as topnotchers. A bout with Morgan, after the latter became champion, was arranged for Spencer, but it was called off when Morgan seriously injured his hand. Spencer has boxed all up and down the Coast, from Vancouver B. C. to Tia Juana, Mexico, and is known as an aggressive, two fisted boxer with lots of ring craft and a good knowledge of boxing to supplant his punching ability. Valentino is the kind of a fighter to make the best showing with such a boxer, and the bout is attracting almost

## MINING LEADS AGRICULTURE

SACRAMENTO, Cal., Feb. 18.—With the announcement that California's mining industry had a total output of \$422,974,500 during 1925, a sum approximately \$17,000,000 in excess of the state's farm and orchard yield for the year, the department of mines and mining, Sacramento Chamber of Commerce, today launched a campaign looking toward the lifting and handling of mineral deposits and mining properties by real estate men on the same basis as industrial holdings. The department claimed such action would result in much greater mineral activity, particularly in development of non-metallic and industrial metals.

## LOCAL MAN IS "KICKED" OUT OF THE ARMY

Literally kicked out of the Army after more than eighteen years' faithful service is the misfortune which has overtaken Private Charles E. Herron of the Service Company 20th Infantry, stationed at the Presidio of San Francisco.

Stern military justice is not responsible for the abrupt termination of the veteran's military career, however. Herron's inherent love of adventure and danger which prompted him to choose the army as a profession nearly a score of years ago, is, strangely enough, now responsible for his return to the peaceful paths of life. Herron's early search for adventure took him to the far-off Philippines where he served under General Pershing in the Eighth Infantry in the action against ten Moros at Bud-Dhao and Baksak. Years later he again came under command of General Pershing during the World War. Surviving both conflicts without injury, his venturesome spirit prompted him to seek new dangers and led him finally to the famous 30th Infantry, commanded by Col. Frank C. Holmes, where he gained an assignment as "mule-skinner" in the Service Company.

His intrepidity reached its peak a few days ago when he volunteered to recapture "Big-Bozo" a "bad" mule, which had gotten loose. "I'll get him," said Herron to his buddies. "I'll get him," wiggled "Big-Bozo" to his stable mates. "Big-Bozo" did, and surgeons at Letterman General hospital where Herron is sojourning, say that he will never be the same again. The erstwhile son of Mars will receive an honorable discharge from the army on a surgeon's certificate of disability and will return to his family in Richmond, California, kicked out of the army by a mule.

## Lesser May Sell Interest In Chain Of Coast Theatres

(By Universal Service)  
NEW YORK, Feb. 18.—Sol Lesser, owner of a chain of Pacific Coast theatres, denied emphatically in a statement to Universal Service today that he had sold his interests in his company.

"Neither the company nor its assets have been sold," he said. He admitted, however, that negotiations concerning the company were going on, but refused to be more specific.

Lesser is stopping at the Hotel Ambassador.

Lesser is secretary of the West Coast Theatres, Inc., which owns and operates the California and Richmond theatres in this city.

## First Answer In Slogan Contest Is Received

The first letter containing a slogan for Richmond, received by A. L. Paulsen, who is handling the contest, was from Miss Helen Early, 3741 Telegraph avenue, Oakland. Miss Early lived up to family traditions by being the "earliest" to enter the competition. Letters carrying mottos have been reaching the committee in large numbers, and it is expected that many exceptional ones will prove a puzzle for judges in deciding the winner.

## Woman Had Strange Influence Over Her Husband Says Wife

(By Universal Service)  
SAN FRANCISCO, Cal., Feb. 18.—That Mrs. Erminie F. Longton, grand mager of the Order of the Magi had wielded a strange influence over her late husband causing him to do his rights to a dental invention to her, Mrs. Ida M. Wadsworth of Minneapolis, Minn., today filed suit in federal court here to cancel the deed.

In her complaint, Mrs. Wadsworth alleges that her husband, Dr. Frank M. Wadsworth, had deserted their home in Minneapolis in 1921 after he had received a communication from Mrs. Longton in Los Angeles, that they had been married in another astral plane and advising him to come to her at once. This he did, Mrs. Wadsworth avers. Dr. Wadsworth died in 1923.

Royalties on Dr. Wadsworth's invention average \$1000 a year the complaint states. Mrs. Longton is said to be living in California.

## HUSKY TEACHER IS UNPOPULAR

BERKELEY, Cal., Feb. 18.—The good old days of the little red school house on the hill, when the principal had to be husky enough to whip the largest students are no more, and brain, not muscle, is the most necessary quality for a teacher, according to Dr. M. B. Hilgas, of Columbia University, New York, who has arrived at the University of California to conduct a lecture course. "The school principal used to be a man capable of trouncing the boys, and this was one of his most important duties. Now that corporal punishment is prohibited, principals must accomplish their tasks by brain work, not by use of the strap."

## Sacramento is to Have Flower Show

(By Universal Service)  
SACRAMENTO, Cal., Feb. 18.—With the Northern and Eastern sections of American undergoing severe winter weather during which there are few plants flowering out of doors, Sacramento, the so-called "Camellia City" of California, today held her annual display of Camellia tree blossoms, an exquisite flower which is said to thrive better in this city than anywhere else save the Orient. The city beautification committee and the women's bureau of the Chamber of Commerce directed the flower which included exhibits of white, pink and red Camellia blossoms from gardens all over Sacramento county.

## Kindergartens Are Proving Popular

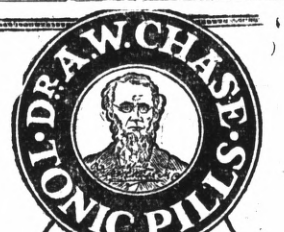

SACRAMENTO, Cal., Feb. 18.—In marked contrast to the situation twelve years ago when California had kindergartens in only five counties, such institutions are now maintained in forty-five out of the fifty-eight counties of the state. It was announced today by Will C. Wood, state superintendent of public instruction, who said that 58,762 tots between the ages of four and a half and six years were enrolled in kindergartens during 1925. Wood said 1,071 teachers were employed in the kindergartens during the last year and placed total cost of these schools at \$3,055,615.

## Old Ledger Basis For Damage Suit

(By Universal Service)

OAKLAND, Cal., Feb. 18.—Discovery in the basement of his home of a dust covered ledger, which was believed to have been in the San Francisco fire of 1906, today was the basis for a suit brought by John W. Dickey, pioneer Oakland shipbuilder, against the Republic of Mexico for \$200,000 on a 44 year old claim. Dickey asserts that the Mexican government never paid him for repairs to the gunboat Democrita in San Francisco in 1882 and 1883, failure by the government of Mexico, he charges, to settle the claim caused his firm to fail. After the 1906 fire, Dickey lost his records and believed that all foundation for his suit was destroyed. By accident the old credit ledger, hoarded among other relics of two decades ago, was found hidden in the basement last week.

More than 50,000 road signs have been erected in Central and Northern California by the California State Automobile Association.

When it's your birthday—and celebrating friends flock in for the glad event—when happy thoughts and laughter fill all the house—have a Camel!

Camels contain the very choicest tobaccos grown in all the world. Camels are blended by the world's most expert blenders. Nothing is too good for Camels. In the making of this one brand we concentrate the tobacco knowledge and skill of the largest organization of tobacco experts in the world. No other cigarette made is like Camels. They are the overwhelming choice of experienced smokers.

WHEN your own birthday again has come. And well-wishing friends troop in with gay congratulation. When your festive halls resound with laughter and happy praise—then how fitting are those words, "Have a Camel!"

For no man has ever lived long enough to find a better, more friendly cigarette than Camel. Camel goodness grows more mellow, more joyous with every passing year. There's not a tired taste, not a cigarette after-taste in a whole lifetime of Camels. Camels are rolled from the choicest tobaccos grown in all the world. Millions of experienced smokers have found in Camels such lasting contentment as they never hoped to find in a cigarette.

So this night as at your birthday festivities you revel in the sheerest joy this old world affords—taste then the fragrance, the goodness of the primest cigarette ever made. On this day of days you and your friends deserve the best. Have a Camel!

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price. R. J. Reynolds Tobacco Co.

More than \$40,000 was expended last year by the California State Automobile Association in maintenance of road signs.

## A NEW WAY TO GET THE VOTES

SACRAMENTO, Cal., Feb. 18.—

David Sherman Beach, the self-styled "World's Actuary" of Bridgeport, Conn., who ran for president in 1920 and 1924 on the "People's National Independent Ticket," has already launched his 1928 campaign for the White House, announcing in a letter to Secretary of State Frank J. Borden today that he will make the race as the "one man who can deny the Rubber Trust of England and make the United States independent for its automobiles."

The "Phantom of the Highways," an invention by Beach, is his proposed means of "Bucking the Rubber Trust." This invention, in which he plans to interest Henry Ford, is a "Rubberless, airless, spookless and chainless automobile wheel."

The "World's actuary" announced that he will shortly embark on a tour of the country during which he hopes to sell stock in his project to 4,000,000 Americans, thus assuring him 4,000,000 votes for President in 1928.

### Shortridge Raps Political Enemies

WASHINGTON, Feb. 18.—Political opponents were blamed by Senator Shortridge, of California, today for spreading the rumor that he was responsible for the Potet outrage at Tin Juana.

In a telegram to the Los Angeles Women's Christian Temperance Union, Shortridge said:

"All government officials from President Coolidge down know my attitude which has been and is always in favor of protecting our citizens, men, women and children against Mexican outrages. Like others, I was shocked by this late wicked outrage and agree with you that no punishment would be too severe for the perpetrators of this awful crime."

"That being my attitude at all times, it is grossly unjust to hold me responsible for the recent terrible and monstrous crimes committed in Mexico. I shall do all in my power to have the guilty wretches speedily brought to justice."

## A Chic New Evening Gown

Uncurled ostrich feathers is the newest note in trimmings for evening gowns this season. The particularly chic evening gown worn by Claire Windsor, Metro-Goldwyn-Mayer player, in her latest production, "Dance Madness," illustrates the effectiveness to which ostrich trimming can be put. The gown proper is of yellow satin, made close fitting to the body, with a deep border of yellow uncurled ostrich feathers. Note the novel cuts of rhinestone studded net from which hang long strands of the same ostrich trimming.

### Settlement Made In Milk War Here

Milk routes of the Purity Creamery will be taken over by the San Pablo Milk Producers and the Eagle Creamery company, according to an agreement reached, the first delivery being made today.

The affair of the Purity Creamery are still in the hands of the bankruptcy referee, according to announcement made by Attorney C. D. Horner, counsel for Alfred Costa, of the Purity Creamery.
